

ARC INSPECTION 20001

ADDENDUM TO HOMEOWNER CITATION – APPROVED STANDARDS AND MATERIALS FOR REPLACEMENTS, REPAIRS AND MAINTENANCE

Motion Lights/Security Lights – Homeowners who have or are installing floodlights on the exterior of their home refer to and adhere to the following guidelines:

- 1. The fixtures that contain the lights should be white in color.**
- 2. If installing a light fixture of the double garage, it should be in the center of apex of the trim above the garage door if both homeowners agree, or in the right or left corner of the trim on the face of the garage. (See illustration for Security Light Locations for exact location sites)**
- 3. If installing a light in the rear, it should be at the base of the 2nd floor window trim whether for two level or three level homes. (See illustration for Security Light Locations for exact location sites)**
- 4. If installing a light on the side of an end unit home, it should be at the center of the base of the second floor window trim. (See illustration for Security Light Locations for exact location sites)**
- 5. All lights can only be mounted on the wood surfaces of the home.**

Security Light Locations

All Security Lights Must be white and in proper working order and condition. All lights can only be mounted on the wood surfaces of your home.
