## **Clear the Curb**

**Starting February 14th, 2022**, Prince George's County will be rolling out their **Clear the Curb initiative!** This allows Prince George's County residents to set out two (2) bulky trash items per week with the regular trash collection. Please review the below [flyer](#) and [FAQ](#) to learn more about this change to the Prince George's County Trash & Waste Collection program.

# LET'S CLEAR the CURB

**FEBRUARY**  
**14**

Starting February 14, we're rolling out a faster and improved curbside bulky trash collection pickup that will allow residents to set out two (2) items per week with their regular trash for pickup from your County provided trash hauler. White goods/large appliances or scrap tires **will still** need to be scheduled for an appointment online and through PGC311.

To help us prepare for the exciting changes, all scheduled bulky trash collections made online or through PGC311 will end January 21 (all scheduled collections up until that date will be honored).

## YOUR SCHEDULED CURBSIDE COLLECTION DAY

Residents will be able to place **two (2) items OR two (2) bags** for collection next to their trash cart for collection on their regularly scheduled curbside trash and recycling collection day. Bulky items **NOT PLACED NEXT TO TRASH CART WILL NOT BE COLLECTED**.

RECYCLING AND TRASH

2 BULKY ITEMS

WHITE GOODS (APPLIANCES)  
& SCRAP TIRES

SCHEDULED PICKUP

Residents will still need to schedule appointments for all white goods (appliances) and scrap tires online or via PGC311. Residents who only pay for bulky trash collection services or subscribe to private trash collection services will continue to schedule bulky trash pickup via PGC311.

To learn more about the faster and improved curbside bulky trash collection pickup and to view a list of acceptable vs. non-acceptable items, visit [mypgc.us/clearthecurb](https://mypgc.us/clearthecurb).

# BULKY TRASH

## FREQUENTLY ASKED QUESTIONS

### What services are included in Clear the Curb Waste Collections?

Clear the Curb Waste Collections includes all services offered to residents receiving County-contracted collection services or who pay a fee for bulky trash removal. These services include regular trash, recycling, organics, yard trim, and the new, improved bulky trash collection program. Residents who only pay for bulky trash removal will still need to schedule collections through PGC311.

### Why is the County offering curbside bulky collections alongside weekly scheduled trash?

Allowing residents to set out two items per week with their regular trash will allow residents to dispose of unwanted items in a timelier manner, which cuts down on wait time, the temptation to illegally dump, and the backlog in a critical service.

### What items are accepted in the curbside bulky trash collection program?

The list of acceptable materials includes:

- Carpet and padding (Limit of carpet and padding is 324 sq. ft. - rolled and tied on ends)
- Doors and cabinets
- Furniture: such as sofas, coffee tables, bed head/footboards, dressers, tables, chairs, etc.
- Mattresses and box springs (must be covered in protective plastic encasement)
- Hot water heaters and push lawn mowers (Remove the gas tank and drain the oil from lawnmowers)
- No more than two (2) large bags of smaller household items such as knick-knacks, home décor, small kitchen appliances (i.e., toaster ovens, toasters, blenders, air fryers, crock pots) can be set out instead of two regular bulky items. The two (2) large bags count as the two (2) maximum bulky items that can be set out on trash collection day.

### What if I have four (4) standard bulky items that need disposal?

You can only set out two (2) standard bulky items **NEXT** to the trash cart each week on your regularly scheduled collection day until all items are serviced. All bulky items **MUST BE NEXT TO THE TRASH CART** for collection.

### What will happen if I set out more than two (2) standard bulky items on my trash collection day?

Your trash hauler will only remove/collect two (2) standard bulky items from the curb per your weekly trash collection. Any additional items placed curbside will not be collected. If other items placed at the curb are not collected, you will be expected to bring the items back into your home until the following week's trash collection day.

### What happens if my bulky items are missed?

To report a missed bulky collection, please contact PGC311 on the PGC311 app or web portal.

### What other options do I have to get rid of large bulky items that do not fit into my trash cart or trash bag?

Residents may still bring any large bulky items directly to the Brown Station Road Sanitary Landfill for proper disposal. Residents driving a passenger vehicle or SUV will not be charged. Residents driving a pickup will incur a nominal fee of \$10. Small bulky items that fit in a trash bag may be disposed of at the Convenience Drop-off Centers located on Missouri Avenue and Brown Station Road. Please consider donating your useable items in good condition to a charitable organization before placing them at the curb. To view a list of organizations that accept large bulky items, visit [mypgc.us/clearthecurb](http://mypgc.us/clearthecurb).

### Can I set out appliances and scrap tires without making an appointment?

NO, white goods/large appliances or scrap tires will still need to be scheduled for curbside bulky trash collection by contacting PGC311 or through the online site. A list of white goods/large appliances items and acceptable vs. non-acceptable bulky trash items can be found at [bit.ly/PGCbulyacceptable](http://bit.ly/PGCbulyacceptable).

### Does the County offer any other new Clear the Curb Waste Collection Services?

Yes, the County provides a Curbside Organics Composting Program that will expand countywide starting in April 2022. The Curbside Organics Composting Program allows residents to mix their food scraps with yard trim for the weekly Monday yard trim curbside collection. Food scraps must be placed inside the Organics cart. Only residents who opted in and received the appropriate program materials may put food scraps curbside for collection. Plastic bags are not accepted. For additional information about food scraps composting, email us at [pgccomposts@co.pg.md.us](mailto:pgccomposts@co.pg.md.us) or visit [mypgc.us/compost](http://mypgc.us/compost).
