## **FBI Headquarters Moves to Greenbelt**

Council is eager and ready to welcome the FBI to our County following a decision more than a decade in the making that will generate over \$4 billion in economic activity. There is no question that Greenbelt is the best location for this facility based on transit accessibility, construction timeline, overall cost to taxpayers and equity. This is an enormous win for the country, the FBI and the citizens of Prince George's County! We are Prince George's Proud!
